SATHYA N

APPLICATION DEVELOPER | PYTHON DEVELOPER | WEB DEVELOPMENT

Ambattur, Chennai | +91 8015721559 | myofficial.acc2005@gmail.com | linked-in | portfolio

PROFESSIONAL SUMMARY

Application Developer with hands-on experience in developing full-stack web applications, database-driven systems, and interactive software solutions using Python, JavaScript, HTML, CSS, and MySQL. Skilled in frontend development, backend logic, database design, SQL queries, CRUD operations, and application debugging. Experienced in building responsive user interfaces, integrating databases, and developing practical software solutions. Strong foundation in programming, problem-solving, and application development.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Frontend:** HTML5, CSS3, Responsive Web Design, DOM
- **Backend:** Backend Development, Server-Side Programming, CRUD Operations
- **Database:** MySQL, Database Management, Database Design, Normalization
- **API:** REST APIs, API Integration
- **Development:** Application Development, Full Stack Development, Debugging
- **Tools and Version Control:** Git, GitHub, VS Code, MySQL Workbench, Render
- **Concepts:** OOP, SDLC, Agile, MVC
- **Data and Analytics:** ETL, Data Cleaning, EDA, Power BI, DAX, Excel (Pivot Tables, Lookup Functions)

PROFESSIONAL EXPERIENCE

Full Stack Development Intern | May 2025 – Jun 2025

BIG-SI-BUCKS Innovation Private Limited, Thoraipakkam, Chennai

- Developed web application modules using frontend and backend technologies as part of a collaborative development team.
- Reduced bug resolution time by approximately 20% through systematic debugging, testing, and clear issue tracking.
- Worked with Git and GitHub for version control, code collaboration, and managing feature updates.
- Built and refined user interface components, ensuring consistent behavior and layout across browsers and devices.

Artificial Intelligence Intern | Aug 2025 – Oct 2025

VIPS.TECH Services, AI Training Program, Nallur, Red Hills

- Prepared and processed datasets for analytics and machine learning workflows using Python and Pandas.
- Conducted exploratory data analysis to identify patterns and summarize key statistical metrics across 5+ features per dataset.
- Wrote reusable Python scripts for data cleaning and transformation, improving consistency of data pipelines.
- Documented methods and findings so that datasets and scripts could be reused by the wider team.

PROJECTS

FalconBuy: Retail Management and Business Intelligence System | Python, MySQL, SQL, Power BI, Pandas | 2026

GitHub: https://github.com/Sathya8015/FalconBuy-Business-Intelligence.git

- Designed and built an end-to-end retail solution covering sales, customers, products, inventory, shipments, and store performance.
- Designed and optimized a star-schema database with fact and dimension tables supporting 5,000+ customers, 20,000+ orders, 500+ products, and 25 stores.
- Implemented 100 DAX measures across 45+ KPIs, including Revenue, Profit, AOV, and Profit Margin.
- Developed seven interactive Power BI dashboards covering Executive, Sales, Customer, Product, Inventory, Marketing, and Shipment analytics, featuring KPI cards, slicers, drill-through, bookmarks, and dynamic filtering.

Smart Putaway System: Warehouse Inventory Management | Python | MySQL | HTML | CSS | Jan 2024 – Mar 2024

Live Demo: https://sathya8015.github.io/smartputawaysystem/

- Developed a warehouse inventory application with rule-based storage recommendations to optimize product placement across 5+ storage zones.
- Designed a normalized MySQL schema and wrote 10+ SQL queries for inventory tracking and storage utilization, reducing lookup time by approximately 30%.
- Built the application logic in Python with an HTML interface for entering, searching, and retrieving inventory records.

E-Commerce Web Application with User Behavior Tracking | HTML, CSS, JavaScript | Jun 2025 – Aug 2025

Live Demo: https://easy-kart-remote-gro-lzoa.bolt.host/

- Implemented behavior tracking across key funnel stages (browsing, cart activity, and checkout events) to analyze how users interact with the platform.
- Optimized the interface for cross-device consistency, rendering reliably across 4+ screen sizes on mobile, tablet, and desktop.
- Structured reusable UI components and clean JavaScript logic to simplify maintenance and future feature additions.

EDUCATION

Bachelor of Computer Applications (BCA) | 2023 – 2026

Vel Tech Ranga Sanku Arts College (UNOM), Avadi | CGPA: 8.04 / 10.0

12th Standard (CBSE) | 2022 – 2023

Vivekananda Vidya Kala Ashram, Thiruvallur | 79.8%

CERTIFICATIONS AND TRAINING

- **Power BI Industry Seminar, Certified Participant :** Cyber Softskill Solutions Academy Pvt. Ltd | Sep 2025
- **Full Stack Development Internship** : BIG-SI-BUCKS Innovation Private Limited | 2025
- **Artificial Intelligence Training Program** : VIPS.TECH Services | 2025
- **IBM** Data Analytics Course Certification | 2026

LANGUAGES

English, Tamil
